About the Northern Lakes Fire District

The Northern Lakes Fire District was established with the consolidation of two neighboring fire districts in 2000. It is not a department of any city or county government and is governed by a five-member Board of Fire Commissioners. The District serves more than 60,000 residents in the growing cities of Hayden and Rathdrum, as well as the rural areas of Twin Lakes, Garwood, and Hayden Lake, comprised of approximately 108 square miles in a Wildland Urban Interface, identified as high risk for wildfire by the Federal Registry.

Northern Lakes Fire is a career Fire/EMS department with two staffed stations currently comprised of 39 firefighters responding to almost 6,400 calls in 2021. Because Kootenai County is a fire-based EMS system, all District firefighters are certified EMTs, including sixteen paramedics. District administrative staff include a Fire Chief, Training Chief, EMS Chief, Prevention Chief/Fire Marshal, Deputy Fire Marshal, Fleet Mechanic, and three administrative support staff.

The District provides all-hazard response including structural and wildland fire protection, rescue, advanced life support emergency medical services, fire prevention, and public education services

Schedule

Based on the District' current 3 battalion system, firefighters assigned to a battalion work a 48/96 schedule, i.e., two consecutive 24 hour shifts for a total of 48 hours beginning at 0800 hours on first day and continuing until 0800 hours on third day, following by 96 consecutive hours off. This schedule does not apply to firefighters actively participating in the District fire recruit academy.
